THE WATER CRISIS = A HEALTH CRISIS

Nearly 1 million people die each year from water, sanitation and hygiene-related diseases which could be reduced with access to safe water or sanitation.

Every 2 minutes a child dies from a water-related disease. Access to safe water and sanitation contributes to improved health and helps prevent the spread of infectious disease. It means reduced child and maternal mortality rates. It means reduced physical injury from constant lifting and carrying heavy loads of water.

THINKING AHEAD FOR A BETTER FUTURE

A bright and green future lies ahead of us if we all start to be more conscious.

We believe that sustainability starts with transparency. We believe that traceability and sustainability are connected.

From now onwards Swiss Peak will only carry products that aim to make an impact on the use of water where possible. We strive to do so by using recycled polyester and other materials like recycled PU. When using these recycled materials we save thousands of litres of water*.
